

Occupational First Aid Course

OCCUPATIONAL

FIRST AID

GENERAL COURSE INFORMATION:

This course aims to give social care workers, teachers and parents the ability to deal with any accidents safely and systematically, until help arrives.

This course is also accredited by FETAC and participants will receive a level 5 certificate on successful completion.

This course is informative, enjoyable and progressive, including practical sessions.

Fundamentals of the working body

Identifying illness and injury

Safe incident management system

Emergency decision making

Awareness of delayed medical help

Duration: This is a 3 days course. A written assessment is undertaken on the final day.
